

The Therapist wakes you up

Television program suitable for all audiences. (You can also make a script for theater)

It happens to all of us, let's say those of us who don't have therapy, now it seems that the new therapy is to remember our dreams well and then we go and see the meaning in various portals and that sometimes marks our destiny a little and sometimes we can make a mistake and have a day. bitter and sometimes a fun day but generally we always find ourselves with a duality of thoughts or a lot of things so to speak that are not expected to have a happy day or a happy night

then it occurs to me how it is the weather report as it is currency report what is the football report do about that 9 in the morning a program

Make it funny with a person in charge of the cultural field, my dress with a jacket and tie, which is on the channel every day of the report.

of dreams then the public calls and this person is going to have monitors behind with all the dream information portals with some assistant to search for what they say is what the dreamer people then point to this with a pointer according to the dream they have had in the various portals and then this person who, apart from being a comedian, has to have knowledge of psychology, is going to give it a touch of humor so that the public laughs at his own dreams and thus wake up all in a joyful way that

There is so much needed in this time and so much is needed for a program like this that is comical and that psychologically affects the things that are done as a joke and it is a lie to make a parody or spontaneous jokes so that the public has fun is as long as the program lasts. which can be from 9 to

10 in the morning counts batch as are all programs.

The program's mission is to sell home therapies that therapists need to work so much and that people need so much not to read those things, so how can we not do it?

tyrants let the person read what they want but we in this

case we are going to follow a  
subjective psychology which  
makes people, putting on the  
program, go out to work happy and  
thus the whole society through the  
humor that a smiling and pretty  
person, both man and woman, will  
have with suspicion and mischief  
to put the dreamers in a meeting  
point with each other we already  
know that times have changed  
that before other jokes made us  
laugh and well now we  
these jokes are going to make you laugh  
news through these portals, there  
are many that have worked  
to tell the truth but they are  
very few so how can we not  
want them to laugh at all the people  
who

They just wake up and are going to read their dreams, which seems like a pretty painful business to me. Doing it with driving professionals who know about psychology is going to be in charge, through comedy, of making a serious program so that at least people don't suffer and then go up. the platform like YouTube what

are seen at different times during the day.

So the therapist wakes you up from the suggestive psychology that respects humanity and human rights. It can help the population, yes, as something divinatory but very joking and that this has no meaning.

It has nothing to do with tarot readers  
and related things that television has  
been doing, but rather it is the interpretation  
of dreams as a joke because if they make  
us a  
joke we joke back.

You can use a song that is on the  
internet in my public domain called waking  
up or waking up with a desire  
to live, you can also arrange it, you can  
make it only instrumental for

have it again with others  
musicians.

You can do a segment of invited  
professionals but that is not the purpose.  
Then you will see how they put together  
the program, what it is.

What it specifically seeks is to  
put society in a good mood  
to demystify invalid  
arguments within the psyche and  
within the society that considers  
watching the program.

It can be done in any country and  
in any language and with  
the aim of improving the  
future a little, what is it about.  
Now dreams are told by SMS  
and the response is not cheap  
but professional.

Targeting mental health in all  
program content.

A therapist told me that there are people  
who all need therapy.  
the days.

Happy neighborhood (work for cinema)

I remember arriving in a new neighborhood  
in my life and I always find it cheerful and  
I find it happy. I don't know if because I don't  
know anyone or because you are going to be  
something that happened to all of us.

We arrive at a place and when the sun  
shines we see each other  
wonderful.

## Scene 1

I am sitting at night with the radio on  
and with my cat listening to music  
remembering the times when  
we arrived in this neighborhood.

I remember we were driving in the car and  
it was shining in the sun and as we  
walked around the block to park we saw  
a guy who was go-karting and  
foreigners walking around selling  
handmade loom clothing and I thought  
this has a cool vibe.

Barbara I love this neighborhood  
while the sun's rays filtered through  
the car windows in a spring.

## Scene 2

Then, on another sunny day, I went  
down the stairs and asked where a  
friend's house was and they showed  
me the way and told me to be careful  
with the danger and I nevertheless went  
to look for her. It was also a wonderful  
neighborhood and I thought there  
is no danger here and When I  
arrived at the UTU they told me two  
blocks down and there I arrived  
and there was a beautiful blonde

in a house which he invited me to  
pass while we waited for another  
friend who kindly lent me the motorcycle  
and I spent a beautiful afternoon under  
a barbecue area that set the room  
very well. Then I said goodbye  
and  
I returned to my house where  
I was expecting a guitar and some  
incense and music to  
entertain me

### Scene 3

Another sunny day I went to visit my  
grandmother and went down a street that  
I had also traveled on another  
happy neighborhood which happened to me

One of the incredible things in life  
turns out that there were some  
friends having a barbecue and right  
there they invited me to eat and we  
played and sang and then I continued  
the trip towards my house. Other  
happy neighborhood.

#### Scene 4

I remember that it was my birthday  
and a relative came to visit me and  
invited me on a beautiful sunny day  
to a distant neighborhood and there I  
found a woman and some friends  
and she told her today is her  
birthday and they greeted me to go to  
the house very cozy to the

which from time to time I come back  
from good working people and in a  
happy neighborhood.

## Scene 5

I had when when I

They invited me to go for a walk or go to a  
friend's house. It was always a happy day  
on those sunny days, and especially  
in new places, that was when a friend  
from my youth had moved out of  
the building where we lived and we  
went to visit the house. new house where

We spent an unforgettable day  
among very young friends. Other

Happy neighborhood other good days  
my life.

## Scene 6

I also moved then and went to live  
downtown away from everything that  
was my past and I lived my adolescence  
among many people in a very cozy,  
wallpapered apartment which also

They gave the keys on a sunny day  
beautiful where for several times I  
received many friends and some who are  
and I remember in  
where they lived in the neighborhood  
family and friends later

They went to other neighborhoods  
perhaps to look for two soles and so did I.

## Scene 7

Another day of sunshine fell in the neighborhood  
beautiful we were in a Fiat 600  
moving to our new house that was lined  
with pine trees and there while it was  
being built they helped us with  
the neighbors' move and we became  
friends and I got a job in a nearby  
neighborhood also on a sunny day in

receptionist of a hotel where I  
received my friends from before with the  
house in

construction almost finished and then  
I continued the journey with new  
friends always inviting them to  
my house to eat  
some barbecue and they always came on  
a sunny day or to swim in the pool with a  
friendly neighbor during the time of love  
after love.

## Scene 8

At that time there were two happy  
neighborhoods that I visited while  
traveling, one was in Carrasco and the  
other was in Piriapolis and I traveled  
from here to there in those days where  
everything was beautiful and  
also where the sun shone

with that captivating shine that  
announced good things and that's  
how my friends happened, my family was  
invited to parties and I was also invited  
to survive too and that's how I went  
through it that's why I can go for myself  
neighborhood.

## Scene 9

Then it also happened to me that I  
began to travel a lot to the east and I  
found myself with those days of  
beautiful sunshine, those eyes that looked  
at me from beautiful women who were  
beautiful friends, that now one will  
know where they are and I suppose  
that how today goes

It's going to be a sunny day very soon  
they will raise the blinds after  
make love happy neighborhood true.

## Scene 10

So here I finished the victory  
of the Suns when they were filled  
inside me and where I conceived it as a  
star that illuminated me  
even inside me in my  
memories that may be the only thing I  
have left and where I can see that I have  
lived without ever forgetting the people  
who passed through my life and that  
leave that light inside my mind which  
makes

Even if it's at night, even if it's rare, it's a  
sunny day in a happy

neighborhood.

Never be afraid to take the initial step one  
sunny day towards another  
neighborhood or to another place because  
they are waiting for you and you will  
be happy (if you want, at the end of this  
story there is a kiss at the end)

Requested by the audience.  
( Contemporary art)

At the request of the public, it aims to be many Facebook pages for artists, especially musical ones, with a server account and then the creation of pages by musical genre, also by countries and the

The characteristic is that these musicians can publish their works or film their works and create a video and share it according to the requests of the public as if it were a letter and after the work is done make their comments for the same people who requested it. The pages will be paid to Facebook to make it legal or more legal and so by PayPal transfer

the musicians will collect the donations that your audience will give you.

It is especially for creatives and there is no competition but rather the artist responds to the public's request and then charges for the work done.

In my personal opinion there may  
also be the plastic arts  
there will also be the cinema too  
there will be theater there will also be  
literature and what will be done is that  
the public, as before, used to  
He approached the artists  
True friends and this in the  
corridor of time was  
disappearing due to putting up  
posters and things like that, so what we  
are dealing with now is a  
resurgence of the culture from a  
perspective in which it is commercial and  
is convenient for all parties involved in  
the business.  
For artists how to be musicians  
or theater artists who record their works  
may be a request from the public live  
music then

A panel is made with the day it is played  
with the collection links and on the other  
hand the art requested or the way in  
which people want to see you in your  
art and then let people make their comments  
that will be good

because they are going to want to be on  
that page. Then from there a page of  
fans.

So the artists are going to be  
making art while others  
They take care of the administrative part  
equally with the payments.

And from there share to all meta social  
networks how  
do x instagram and Twitter that the  
same fans are going to do it if

They want to do a cultural exchange  
between groups of friends.

Oh, of course, any artistic work  
can be classified by genre. because  
you can't ask an artist for  
something they don't know how  
to do. With the corresponding  
waiting time (Let's end the  
horse race)

## Blogs (Work. Digital Marketing)

The best way to advertise your website.

The first thing to do, of course, is to have our website. If we do not have the money or time to do marketing and advertising, the best thing is to create a blog that can be a Google blog that we all know how to do and it is also very simple.

So it's about recruiting people or workers who want to do an internship that can be through linkedin that these people charge for Google

Ads and then make a resurgence not only of our page but also of the blogs and creating internships in

all areas of the industry

Web.

So with all this data

We can create an account on

LinkedIn where all the workers are and

we can recruit and then refer web

content workers to the

requesting companies or our own

company that would be the best.

Then it is derived to the blogs through the

person who is a marketing intern of the

best content and the best latest

publications on the page and then direct

the traffic of people to what is our website.

They would then be

workers of a derivative that can also provide us with the score of the user who views the page and it will be a small survey and which will serve as a guide for future publications and issues that we are trying to carry out. Even asking if the blog was useful.

Always put a link to the page below.

There are many people who can do it, there is a lot of supply and a lot of demand so that our website is looking better since our blog would be sent to friends, family and professional contacts and acquaintances. How we go

to provide the information and that  
is the advertising of the company  
or the website, payment through  
Google Ads is going to be for the  
worker in particular since he or she  
will dedicate time  
For this task.

So what we get at  
final is a work result both  
for linkedin both for the company  
and for the workers to do  
good marketing and good advertising  
for urgently responsible people who need  
and who have an income or an extra  
income as a publicist or marketer  
of what

we are doing  
our companies and so on

way to lower costs while massive advertising cannot be done.

So consumption will be higher and with that we can also compensate the work of the bloggers with a percentage of the profits taking into account the visits and the time spent for the task.

So with all these elements we can now count on advertising and marketing in our company and income from

a human form of a form of work and loyalty between the employee and the employer that is why I say linkedin for the beginning of the project. Furthermore, young people come with new ideas.

that they promote with fresh ideas  
fresh from their studies and there are  
also many who would like to do the task  
and it is better that the blogger workers  
know that there is even a page  
and that this social network of  
friends can collaborate for the  
exchange and also the link between  
people so necessary and de-stressing.  
Then it would be

How to make a digital  
information portal.

## Teaching help (teacher)

A teacher asks his student to give him his best shout and slap.

Well, he said, now I'm going to show you more. Give me your best shout and slap on the other cheek. He told the student well and helped him.

Is that all, said the student?

No

hand me a mirror

What did the student say?

So I make sure until when I can help you

How is that?

The teacher told him.

You see! I can't help you anymore

I only have two cheeks. Or maybe you  
do you see a third? rarely now

I could help you.

Moral: A good person helps you even in  
the worst circumstances  
until he sees himself and verifies that  
everything  
It has its limit.

It is a matter of respect.

Daniel Triunfo

Adolf the painter

Play (can be filmed and televised)

Voice-over: Well, I'll leave you here.

Adolf behave well'

Adolf: Yes dad.

The scene is in front of the public with  
a light illuminating all the  
painting and the setting in  
particular.

Adolfo painting a war.

First hour of exposure

Critics: but that was painted by Picasso  
in the Garnica.

Adolf: If you can see this work, if you  
look carefully, you are  
marked in the events where

There was no slaughter in my death and  
that only the work captures what was  
bad in the past.

A girl goes on stage with  
little clothes and says yes, this is it for me  
he took.

Adolf; I hope you like it and enjoy it.

Girl: yes you are going to love this one  
dad since it has exquisite uses for the  
good of humanity.

Adolf: but how glad I am that  
everything in the world is love.

I went to the academy, the first painting I  
painted, they accepted it not because I  
was good but because  
The critics of old saw everything  
good thing I could do for him  
world.

Then the theater breaks out  
applause.

The stage cast leaves and the light  
goes out.

## Second scene

The voice behave well:

Adolf shows a gay couple in his painting.

A small auction is set up for the cast,  
I buy it for 13,000, I buy it for 17,000,  
I buy it for 23,000.

After the auction is over and sold,  
they give Adolf a round of applause to  
continue creating.

### Third scene

You in off-screen: he enters with a little white poodle dog where he asks us for the most beautiful woman in the world and says: I was looking at your paintings and how beautiful, especially this one here (and he points to it)

Adolf: the painting of the gypsies?

And he explains to the woman: you see the colors confuse you a little but if you realize there is a very close proximity between the woman's lips and the man's lips that is achieved with the color and I tell you more one is a gypsy you You can tell by her tied hair and

another is a Jew, you can tell by the  
elegant suit he wears or  
tails.

The girl is then in love  
the painting and kisses Adolf and says  
yes, I want to take this one.

Applause from the public

The entire cast leaves the scene.

The public begins to invoke another  
other.

Then you go behind the curtain  
They begin to put up a gallery of let's say  
anti-Nazi paintings.

While a loud airport on the stage  
doing  
a sample of the paintings and an  
orchestra begins to play  
symphonic.

Adolf begins to cry with joy.

Her beloved's man and her  
beloved cat, in a corner of the stage,

Why are you crying, Adolf, says the voice-  
over.

Because if in life I had been taught that  
happiness went where I wanted and what  
I wanted to live, I wouldn't be so  
crazy.  
fiurer.

You if not off

Adolf then paints the basic letter backwards,

Adolf: yes that's what I should have  
have done all my life.

Then a man jumps on stage from  
the audience and makes a joke and  
asks why you didn't paint buttons and  
soaps.

Adolf: but don't be stupid, luckily that's  
already happened.

A child of more or less 5 years old  
appears on the scene and an adult  
pretending to be the father in  
a deserted scene telling

you saw Adolfo they have accepted you  
we are going now.

And they leave the work happy and  
the lights go out.

The father tells him very loudly, now don't think about working in customs.

a boy from the stands half says yes  
f\*\*\*\*\* was the guy.

It ends musically with the symphonic Band.

## The Dreamer (To script)

It is a reflection for human well-being.

More than a reflection, it is a duty of the human being to know why we do the things we do and why we stop doing what we do.  
we make.

Right or wrong we are all dreamers  
and this is seen in many factors even within mammals.  
that are not the human being even within the animal that is not the being human and even within the world called planet earth

who is the human being but bury  
the human being.

When any species is conceived, let's hear  
when a woman is going to get pregnant,  
and from there the dreams begin about  
what will be a lucky person or a victim of  
the society that expects it.

That is to say, we are all dreamers and  
from our Conception until  
Our death we are prisoners and we are  
the haste of a simple dream.

Some people, due to their upbringing,  
see this dream as good or bad; a person  
within a role also sees it as good or  
bad.

acquired because dreams happen.

Let's start with something very simple when  
our parents make us sleep that this dream  
may be good or bad but it is a dream  
and from there we become dreamers and  
that is why I say that it is beyond  
good or bad and by that I mean and rectify  
the

good or bad is an illusion of being  
human because they send us to sleep  
but we have the freedom to dream what  
we  
we believe or want.

Sometimes it makes us a little angry that  
we can't choose our dreams as adults and  
that's why it's about the justice of life, it's  
because

has not yet been invented  
path of relief other than  
with abuse.

So be very careful  
the people who send us to sleep  
and adults is why I want to say  
that adolescents get very angry  
because adults, society  
does want them to live a dream  
that it does not want to live and  
that is where the conflict and the  
conflict within  
generations.

It's what happens in non-adults that they  
send us to eat food that we don't want  
there the school that we don't want there  
the desire that we don't want  
to live in

conditions that we do not want and  
ultimately to experience things that we  
do not want like going to the psychologist  
like going to the psychiatrist or  
like watching a program that  
We don't want to or see a movie that we  
don't want and that doesn't  
make us crazy, it makes us bad dreamers  
and that's why we need all that crap. In life,  
not being free, the whim is going to  
intensify towards the least thought out and  
most clinging sides of life, so in this  
world no one can guess what another  
person could be like because neither reality  
nor

dreams are consistent between

Yeah.

And what happens with all this, one blames some and others blame others without any of them being guilty and generating great injustice. To put it in some way, if someone killed on a motorcycle every time a motorcycle passes by, they are a murderer and that is a mistake in bad dreams. And that's why no one can correct this world because there are many bad people.

dreams.

The father's job is to correct the son's bad dreams, the mother's job is to give the child good dreams.

Son, if it was done that way we would all be normal in quotes.

There are even parents, not all of orphans, who are

People have good dreams with friends  
because there is an individual being and  
that is why migrations occur because  
human beings look for what is best  
for themselves because it is good for  
themselves to have good dreams and this  
cannot be bought with anything.  
only with a good teacher to  
advise you

The road to happiness. So  
the common society we see  
is getting used to being in a  
corralito and I don't stop here and I won't  
stop there until we meet and  
we will splurge on our  
unchanging place out of place and totally  
unfair. So what is proposed is to  
highlight the discharge of highly  
possible people

who work from a young age or from  
the mother's womb to  
individual so that he grows up with  
good dreams and healthy  
habits and why do we want this? So that  
our children are lawyers, notaries, and  
hardworking, good people.

So we can come to the conclusion  
that the one who is sick is not  
sick.

He simply has bad dreams and that is  
unbearable for others. That is  
why the conduct of the  
pregnancy of the son and daughter  
is important. If not, try an animal or a  
pet to see how it behaves with the  
rest of the world being

abandoned by his own. Forks

that having your dreams better  
interpreted by yourself gives  
greater security.

## Eternal Sesame plan (Windows)

The web pages that offer  
services will benefit

with collect calls and

So in this way the user each

Every time you call you have

the right to unlimited access

and all services without any

hindrance. The page is charging

33% from the cell phone company

and this is the other total. This

will serve to grant network

access to the pages, increase

security and thus avoid fraud. Now

the web is no longer free, promoting work.

Pages can no longer be left open and access verified identity. Everyone will want to do it because the payment is certain.

Whoever wants to implement it on this website should do so.

If a new website is made will call Sesame where all the pages are associated so that, being a search service, before entering it asks for a number telephone number is charged reversed and then you can enter to enjoy all the services of each page and its fruits and it is not free, you have to pay very little for how much you are going to obtain on many pages that are today in the conventional search.

They will want to go to Sesame and they will be welcome. Sesame is a search service in which where the user steps, a call is discounted but with the benefit of access exclusively to service of high quality and high prestige that will surely bear fruit in everything learned. So on Sesame placing the key at the beginning of the user to an exclusive service in where you can use the pages directly for a select circle of high social class.

Well, be a new email like those currently used and a search engine within Google but with the condition that to use it it has a cost reversed from the

telephone. So in that way  
create new social networks new  
music sites new pages of literature and  
everything that concerns what the  
conventional web is but from a paid  
and secure and reliable point of view where  
before  
If you use the search engine, you will find  
all personal data and  
This way fraud is avoided.  
spam hackers and thus remove  
everything bad from the web to  
put all the good in it  
Sesame search engine.

Nothing about Old Women (Unscripted work)

It is a production for actresses  
between 65 and 65 years old.

Although the work is for cinema, it can  
be suitable for theater.

First scene

Boys and girls of 34 years old  
sending them to nursing homes or mothers

Then their mothers made me geriatric  
for feeling young  
they start a race  
which do not deviate from the whiskey  
of the game

So what the movie is about  
or the theater series is in healthy  
reproaches

How to be able to leave our mothers  
and our grandmothers alone and

that nothing escapes him from it is the  
opulence of play

So what occurs to me is to know from  
professional actresses what abandonment  
on the part of  
of family members...

Then she in the nursing home  
conspires against everything and begins to  
do a fun race in  
where we need to have adventures  
with more young men just as there is no  
shortage of vices, the good  
live inside high houses  
rotation and there is never a lack of a  
child to support and love them.

The days may not be many but what is  
worth it is raising awareness  
among the population of these people  
who were beautiful and beautiful at the time  
and are also  
doing differently.

Three or fourth main artists are then  
proposed..

Let's not forget Adrián  
Brodsky Susana traverso moria cazán  
to give you some examples.

So it occurs to me that the maker of  
this film has  
their hands experiences these actresses

and then capture images in which we  
see our

favorite pig in a way that they can show  
off and bring out the best in them from  
that tragic medical vibe that they have  
in theater because if they made us

as well now as we are doing  
to forget truth.

The script is going to see itself

What the story of those three friends is  
going to give is a different acceptance  
of the elderly as

We have been growing it, so these  
actresses are going to tell us that apart  
from the psychoanalyst chorus of

the pills and I lock her up, they have  
another life to live and their fortune  
remains, they will be able to share it  
with the rest of the people who stay with  
them in the nursing home but to live more  
in the breweries than there.

Then she's going to tell the  
younger generations, nothing old, what is  
the work going to be called?

. ...

Now only the lions remain and just call  
casting artists from the third and call the  
divas who are in third

.

What do women want?

Many people ask this question and the thing is that women continue to wait for something specific that fills them completely in space and time so as not to lose life without enjoying it, so here I tell the enigmatic question that all men ask themselves: across all societies

told in a pleasant way so that they can see  
and decipher the deals  
incur with the ladies from the  
view of a man and this is not  
It is about a sermon but about being  
honest or what happens to us on  
a daily basis and why it happens to  
us on a daily basis in prologue,  
below I will leave you with my experience.  
and in similarity with the work task  
performed  
man or in difference with what  
who are behind with work  
of the daily tasks of a house.

Exactly what he wants is what you  
have to ask him. I saw a father  
at the next table in a bar.

teaching the son and if he invites a lady to dinner he asks her well what do you want to drink do you want to eat and the son listened and I can also be at the table at the side.

Now there is no specific rule about what women want, but you can have a generalized idea of when, for example, you take the first communion, what they want is to share little cards and that is what they only want and also that you write letters to the school to She doesn't want to say anything even though she is super in love with you, things are

They are planning for the future and it is not known how much but while

I wrote you letters at school or  
the only imploration to give her a kiss,  
she already said some compliment at the  
same time to someone she liked  
more and that's when the  
nonsense when she jumping the  
rope you left it, meanwhile you cut  
one that you were  
the monkey ladder fell from you  
for staring at you while in the neighborhood  
the girls who liked you hid very well,  
some other plays with you, others who  
subtly harassed you, others who didn't  
even bother because they were with our  
friends, and more so as you got  
older, true stories about your  
  
friends about how they had  
conquered a woman you liked very  
easily and

So how could this whole story be possible because the girl you liked didn't give you any attention and the girl who also liked you didn't give any attention to your friend but neither did she give you any attention and the least expected girl, the thing now is to say Those who were behind you because of your intellectuality will be vain to you and you, as if stunned, did not know how to understand the message. You even made her wait like five dances in a row to ask her to dance and you did not realize that she was already looking in your eyes all the time and perhaps It was from the woman of your life because you went with a friend who wanted to win her over and didn't win her over and you

Instead of continuing to dance  
and conquer her with the guitar, you  
followed another path and she never  
appeared again and that is when the  
man's grief begins to weigh on him.

And then from then on you always thought  
you were the only one  
so more or less in age

When you were married or after you  
were married, you realized that the  
infidelity was not just yours, that's why  
you should have learned it at 13 or 14  
years old, where you had just

We began to have girlfriends and what  
a good man has to understand is that  
they have already started to have  
boyfriends and among those  
boyfriends he had perhaps much more  
than you and perhaps at that age to

some men like that in love and for other  
men they did not make love and perhaps  
you were on the list of negativity and  
painfully but they did not do it out  
of bad luck they did it because you did not  
know about women than what I am  
teaching you or childish

as it says. We will never  
Knowing everything about women, it is  
known that they keep a secret between  
them that is very difficult to guess, but if  
you know, you better keep quiet. As long as  
a woman loves you, nothing happens, the  
problem is when she lets herself love  
you, that's where the whole problem arises.  
When you  
you know teenager you are what  
you managed another partner another  
girlfriend but with the condition that already

At that point you either have to work or be  
someone socially to have that woman that  
you and I mess up too that you  
remember her all your life and the more  
women the worse because you  
remember too much and why they  
broke up with you because you lost your  
job. you were left without her income you  
were left  
to be strong as they said

In the old days, and whatever women want,  
they are strong men, so when you  
thought he had her completely dominated  
and separated from her friends, she

he commonly gave with all his  
circle and you are the exception and what  
do women want safe sex just like you  
meanwhile  
you had sex with another if you didn't give

account. And then there is the girlfriend of  
your friends who are the ones who  
kick you under the table who are crazy  
about wanting to be with you but  
they have the guy who doesn't even let  
her live so why do women want to have  
strong men who let them live? In other  
words, what I mean is that we realize that  
he already needed to have lovers, which

comes the conscious cuckold saying  
forever or unconscious.

So what do women want apart from giving  
you a little trap that is strong, that you let  
her live and that you are a good cuckold.

And then

when you got tired of all that life

women begin to look for  
man of your dreams then

They talk to their friends, they talk to their  
family members and without you  
realizing it, you love yourself so  
smart and you think she's a moron who  
doesn't understand, she's listening to  
everything you tell her, killing you and  
she's going to use it  
for or against you or both  
cases that they recommend, don't  
find out. So there after  
having found your love  
life already tired of easy stories she has  
already seen you years ago and  
They even know how life is going to be  
When married, where are they going to make you?  
work and even those who are going  
to be their in-laws while you get serious  
and start with dating nonsense  
without making love of course and then

because women have a sense of  
smell, you meet the most beautiful  
woman that has ever happened to you in  
your life with a hellish blonde and they  
are so skilled that if they  
They met each other, you're going to  
stay with the worst and that is precisely  
the one you chose

Santa María Juana and not the escort is an  
intelligent party, the man who for life  
takes the risk of choosing the party and not  
the bent one, so to speak, but  
this is it, it was all already written in  
destiny or is it what

What they spoke I don't know. But it is  
even more complicated because  
when you go to live together, the  
women who you like begin to appear in  
a magical way.

They hate you and tell you how hateful you are and ask you so badly that you already begin to lower your self-esteem. It is the first step on the ladder that lowers your self-esteem along with your wife who stays sleeping in your home while you go crazy and you do it you know why to get pregnant because he chose you. After he chose you, she got pregnant, well, I choose, I waited a few years, he did everything a woman wanted and then he let you, which was also what a woman wanted, and not only that, but he sporadically gave you a good laugh and she wasn't the only one, they left. to laugh more than twice but you're going to realize nothing further. And yours is maternal love

woman until she tells him I'm not  
your mother, that's it, then  
what do women want you to  
support your child that's why they  
don't leave you without a job.

So we are already seeing that  
women do not want much, it is  
something like you believe that  
you are cheating on her at the  
beginning of the relationship and she  
is cheating on you and that you are  
cheating on her at the end of the  
relationship and she is cheating  
on you. So what do women want  
when they let you chase them even  
if they beg you, don't call  
them even if they beg you and  
leave you totally destroyed and in  
misery. But it's not because of evil, it's because you

What you want from women or a lady  
are the details.

Beach is not made with a grain of sand  
but a grain of sand contributes to  
making the beach that is what love is  
about and I think that what women  
want is for men to treat them better.  
Get rid of the idea that they care about  
money because throughout my life I  
never had to pay for sex so that is wrong  
as long as there are no children involved.

So, summarizing what women  
want, now that there are social networks  
that man does not stop at the mere  
fact of conquering them but

the action happens, women think properly  
that there is no need to waste time in life,  
that everything is done for love, even  
if they have had five children from  
different husbands, they think like that.  
So you have to conquer everything I said  
before that I don't want to mention again  
and remember that a lady is a lady  
incomparable to any other woman,  
that's the one you missed, you idiot. If  
you are not going to treat her as she  
deserves, it is better to raise a  
cat, a dog, a horse, they will understand,  
they are a little more humble, but you  
are not going to waste a lady's time,  
that is, when she looks at a

single look at that single woman for what

He is going to look at so many things,  
why is he going to shine at the other  
man's wife unless he touches her leg  
or whispers things in her ear that  
are normal for human weakness and  
beyond jealousy, a man has to have  
enough maturity and training to  
understand that in a relationship the  
problems come on their own and that you  
don't have to be futuristic but it is very  
good to have a bowling alley, a full wallet  
in your car and that I went wherever I  
want, that is a confident woman, that  
is what a woman wants. And add a little  
humor to it too because as fashions  
change, so does the

women and sometimes the fashion  
is to change husband or boyfriend or lover  
and suddenly it's your turn.

The worst part, I don't know if it's  
staying with her or not.

## Fruit Fermentation (Alcohol)

For a long time I wanted to find out if fermented oranges could be make alcohol then made

A search and I find that many citrus fruits can be fermented and that all fruits except bananas.

From there he began to see the different uses that can be given to what would be the similarity of the fermentation of grapes but of almost all fruits and citrus fruits.

Oh, of course, it is not about liquor but rather it is also about the extraction of alcohol for fuel, which is an example of productivity.

Beyond this that is just now making a smaller scale in the houses and which has just been investigated, the conclusion is drawn that almost all fruits and citrus fruits can be fermented, giving a wider range to what would only be wines, so it is convenient for producers

farmers begin to produce even more in this specialty.

Given that this is something new and if you want to make the scale larger, that is, for the society in your context, you have to work in a plant that does not have to be very large and is advisable near the markets and is also advisable for them. fruit producers and also bring the producing plants closer to the neighborhoods for their inauguration and expedition that will have to have advertising

## Capital (play for theater)

It is a political work, from the moment we have a project it becomes a work, which is why contemporary art is very useful to us. It's a table

round in which various characters in the performance will shape the economy for example.

Duration of the hour one more hour  
or less.

It can be men or women or all  
together.

The main stage scene  
is based on a round table with  
actors and actresses.

Under good lighting with the  
red carpet and it can be  
broadcast for TV and I will see

what to promote the applause for the  
artist.

The actors forming a  
political attitude they will face the  
discrepancies of the other actors always  
trying to find the  
good in society.

This is marked within the scope  
economic and only within the economic  
sphere for new ideas to emerge and for the  
public to be nourished by these political  
ideals or  
this debate which seeks  
benefit the public of society at  
large

So the main thing is to talk about the topic of La pobrrzs and the topic of investment, which is now what I am going to discuss so that everyone can write a script.

So the issue is that there were many investments and increasingly poorer people and then the question is how to maintain the investments and have less poverty or no poverty at all.

The dilemma is simple,,,(and can be improvised)

We then arrive at what needs to be scripted... or learned and then dialogue between the 10 or so actors so that there is a pre-electoral debate.

Then I read some guy's house presents a project.

The project is about: let's talk less about how we can't make ends meet because with our savings we can make ends meet.

I wanted to do what to do a capital fund managed by the state by the government being the

state or government it is

So, a person who earns \$30,000 and whatever they do, they can manage the accounts so that people do not waste the money, then the electricity, the water, the Wi-Fi, to give some examples, can be stopped.

from now debiting it from the account  
Of salary.

Companies such as the AFAPs would be in charge of these, which are the ones that invest within the market, so while generating money for the market, what we do is give space so that the poorest sectors can work and thus give growth to the country with a percentage of the rate

of capital retention, then what we would be achieving is that people do not work black and have the possibility of joining retirement insurance.

Then the round table in the theater is going to deal with this topic and other business topics economic without political banner so that people take into account what needs to be done for a better country.

You can get information from bibliography of how to make money.

That is to say, then any theater group with a firm and concise idea and with a spirit of debate, not speaking all together but word by word that can be guided by directing the public within the specified idea like the previous example, which can be within all the disciplines that involve the

society seeing it from a artistic optics.

It is optional for the public to participate and also optional for there to be a moderator.

It should be noted that this round table format can take place in all future areas of any region of any country and it is a way to express our opinions and also listen to the opinions of others.

If you want to make it popular, call people from your political sector and if you want others to listen to new proposals, invite the people.

Let us not forget that democracy means government of the people.

Ranks

Idea for cinema (comedy)

You can also call it crazy boots and include Charlie's song at the beginning of the curtain.

The main and simple idea is that the characters are called not by their names or invented names but by ranks or by professional name, so in that way we can make a comedy that covers society in its entirety.

together, of course, with a lot of complicity since the characters are going to interact with each other without being musicians of course or artists who are measured by popular categories, worth the redundancy, that comedy can also exist but in the background.

So let's imagine dialogues such as, to give an example, the mother speaks to her son and the son answers yes, my general and this does not offend, the mother answers yes, doctor, then in that comedy that results from only assuming the roles as ranks we can do a workshop with the help of many people and then they get together in a long comedy which is going to be totally crazy. A boy comes out of the house and shouts to the neighbor across the street how he's doing, engineer, and the boy answers very well, accountant and That's the joke: doing the dialogues not with your own name but with professional qualifications, that is, in this format, there won't be a problem. What the scriptwriter has to do is choose professions or ranks to call people, that is, having to choose names. a scenographic mix of what is the neighborhood of the young man and married with children, then from there we can imagine the dialogues that suit each one with that crazy vibe that occurs to me now it can be

done in chapters but for me exactly like a comedy which has already been done in some cases but within a secondary context in a film.

The good thing is that a function of what real life is and that learning that most people have from the bottom up, in my case totally absurd but necessary for civilization, makes people laugh at themselves. And well, it's not as complicated as I already said, you have to write instead of the name, for example, how are you doing, commander, very well, doctor, and so on. I think the idea is home Clara so I just expect a lot of comedy a lot of wisdom put into the script and it occurs to me how extensive it is that it can be done through a contest on the Latin American reality and then put it together in a work of which we are all going to be involved. proud and that it will easily make it to the cinema so please let me know. But an audiovisual or

I can do it easily by learning film, I choose to give the idea that seems important to me but for reasons that I have to carry out other tasks, unfortunately I do not have time to write the script and I clarify for them those who wanted to do it or those who want to do it that do not The order in which the story takes place matters.

and what professional trained scriptwriters who can do it themselves and don't forget captain that in this daring we are together with The Plebe.

If it is advisable to study on the web as much as possible of disciplines and the ranges of each one, so then with your imagination you can intertwine and shape them if you want to make a personal script.

## News and advertising (Media)

What I'm talking about is that  
there be a special WhatsApp for

here radio for each medium such as those teletype rooms that are only for information and advertising.

It is very simple what you have to do is have a number of new whatsapp phone make a subscription to what is reported weather report currency artist news. And the The most important thing is to be connected all the time with audap, that is, the association of advertisers in this case in Uruguay, but it can be done in the association of other advertising companies around the world.

What I am saying is that it is not a WhatsApp to send

Greetings but to work like those newspapers that went to the press with the radio and now the radios have it with WhatsApp and this can be linked to following Twitter to following Facebook or other networks of precise information.

So what we get is a diary from a radio group on television and then in that way we can work more comfortably with the information that comes to us.

So let's imagine a source of information and news in which it will be arriving

constantly at our telephone either by subscription from us or in some cases to subscribe to us.

So the fundamental function  
What is happening is from a  
newspaper like the Rolling Stones  
used to be and like now it also  
informed us about the artists and  
now we can subscribe for more  
of an example. So we  
have a WhatsApp clean of spam,  
let's say what we do with a new  
number only for news and  
advertising that everyone looks for  
the source and when this  
source does not work, they  
can block it. The proposal is  
very low cost since you have to  
invest in a telephone number and  
perhaps in someone who handles  
this data, such as a person in  
communication science, and it is  
clear that not all WhatsApp

They are going to be the same as we all have different news and advertising so what is highly valued is that we have a newspaper of ours or our business group digitally and exclusively for ourselves where we can get mansions because now radio and television reach everyone and know if there are people who are going to be working for us so that we will have the news and advertising instantly. I repeat by subscription and this will make it easier for us to do what we do with respect to the audience we already have. the note that we leave to do. So now in the

half will have two phones or  
two WhatsApp, one for news and  
advertising regarding the group  
and the other for what the showbiz is about.  
social networks send greetings  
etc.

What it is about then is having an  
information channel for each medium and  
implementing it.  
makes the light of the air. To put it  
some way.

So access to what are the mentions and  
also access to  
taking mentions is much more  
fruitful and productive for the  
company, whether online or for good  
massive.

Also what is achieved is an order of the flow of information and in this way the information that arrives will be so distilled, so to speak, that it will not be needed as I have noticed.

the lack of sweet in the communication.

Before, the ticker room was in charge of sending the same information to all the channels and all the radio stations, but now we live in different times where everyone can make their ticker room to their own information and advertising agency. In other words, it is looking for what

one wants to be social networks or in magazines or wherever

artist information

where that subscription flow  
does not give enough information

to make a productive  
and excellent program.

Then our sponsors will be sure that  
the

information provided to the media

To be safe, a small access must  
be left open to create more  
advertising flow within the closed  
group that can be  
one medium or all the mediums

you see that. It is a message  
especially to the voices that  
are within the means of

communication so that it sounds  
more pleasant and with more  
credibility, which given that

subject is much more productive and sells more. Is

To say, now we have a weapon to defend ourselves, whatever group it may be, and we have communication with the people on another WhatsApp.

## The Fiada

It pretends to be a credit card.

The purpose of the card is that you can buy how checks are used with payments in 30 and 60 days by the merchant and thus be able to sell food and drinks with an advantage that the customer can also be granted a credit of 30 or 60 days Let's say that the fiada card aims to establish links between the

markets that supply and the large supermarkets that will buy the merchandise at a

cheaper cost price and that way is to be able to implement the strategy of placing warehouses such as neighborhood warehouses

in all the towns of the country or buy stores or make

links to warehouses with this

card. The fiada is like that old notebook that you carried but

now it will go in the debit of the

card when a person who is a retired public employee or pensioner has the

benefit that if the money runs out before the 20th, to give an example of each month, they can use the card that protects them for their sustenance, that's

why I say meals and drinks, the other

They will buy it with other cards or in cash.

So the gain is that each town in the country has a store where a card issued by the company can circulate with the objective that the supermarkets can get closer to what are the less affluent areas and with said card gradually add more services.

how to be a butcher shop how to be bakery as being a deli then it becomes little by little in an estimated period of 10 years in a supermarket within the town which will advance the businessmen and the town that needs it then it becomes the

business by building a warehouse which will make the situation cheaper.

So by paying with credit you can raise funds for the goal of building the supermarket while it previously functions as a warehouse.

Then the fiada after 10 15 years the card of a supermarket chain is converted which will lower prices.

It is important to emphasize that the merchant has access to the large market with a credit of no less than 60 days to pay in order to have the area of this card covered.

So to round off a bit, it is a more or less urgent way for the

Interested parties set up warehouses in moderately wealthy towns to help and be helped.

Prices will vary depending on freight or promotions that will compete in prices and services.

So there is a fairly important movement of capital within the card if it is made to the most remote place, giving life to the town, which means that if it is not enough or if the purchases get out of hand a little, the client will have the card. that as the only card the state will support it and this has a double impact of the

There is also the work that will be given to the population of the area.

Millionaire of the day.

It is about doing a draw for buyers on a certain day of the week and a certain country that the winner of all the profits from the products and services

members take 1% of the profits so that's 1% of the day.

So that day all the businesses are going to want to be there because it is not going to be a discount and 25% in favor is a lot for what is going to be paid to the person drawn and I think it is going to be a success because the accumulated jackpot is very

great whether from this country  
or from another country. That day  
all cards and all methods of  
payment are accepted. Whether  
on the avenue or in the  
shopping center, a participation  
ticket is created for the buyer with  
each purchase, no matter how small  
it may be, and so that day  
there is a very important market  
movement, so the customer receives  
a lot, so the merchants They

At the end of the day, they deposit 1% of the profits into an account which will then be drawn that same night and the winner can withdraw it only with the ID.

In reality, what all this movement is going to pay is 1% for the winner of the draw, 1% for the lottery agency and 1% for the organizer.

In other words, that day it will not be a 25% discount but rather it will be a 3% discount on general.

So the best of all is that merchants who

## Master house

Entertainment program linking work  
and competition for the  
construction and educational field.

The main idea is that bricklayers and  
electricians and all the people and  
workers who perform  
doing work inside houses  
or apartments, that is, the arrangements  
to make a competition  
program for points for time and for  
quality with a  
Jury of architects then, being full of  
precarious houses,

You can write down so that you  
can do the program and you  
can do the program every day  
edited with the images for an hour  
or so per day.

So they compete for a big prize  
and the viewers learn how to  
work and the actors benefit from  
the prize for getting more jobs. The  
good thing is also that you  
can choose a toilet, an electrician  
and a bricklayer as a crew to  
leave a new house with a  
painter and then there is the  
part of all the cleaning of the house  
and also what you can do is  
optionally put in new furniture  
and then many houses would be  
captured since it is a

solution for many people who are precarious and this program would sell construction and learn about construction. For each day it could be a different crew and according to the Jury they would give the winner to the master house crew then all the people who are involved in the field would work and kill themselves for good prizes and in this way they teach how to work in construction and achieve other things for the creation of self-help housing and other things that the function of the Jury may come up with

is to visit the house and see all the endings.

The production will equally pay all workers  
who participate in the program,  
which is different from the master house

group that takes the grand prize  
apart from The prestige that  
It will be given to you.

There is enough to do and it can be  
done in any country and in any city. What  
we are talking about is repair, it is

## Target Market

It is very simple to do, it is about ensuring that all supermarkets and all stores have the popularity of the employee who is working online on social networks and

then I would be selling a product that with a definitive form of payment I would be charging supermarket or service business and at the end of the month the Internet user gets paid, this is what they want to say that he really teleworks so I set a marked goal because the goal is Instagram Facebook Twitter etc. and the market because the entire market is going to be there so what is missing is what I say the organization because not everyone in the networks wants to work there are people You want to have fun, well, those people want to sell, so as I said at the beginning, it's simple, that is, we have a group of friends and from the supermarket they send us suggestions to put this on a specific page for each user, with bps and all the requirements that

have a worker as with existing rights under the law.

They realize metamarking is going to become the most precious network for the buyer and what they have to do is a lot of advertising, whether for the left or the right, they will see that and what is needed and they can separate an agency that

## Self-esteem

When we forgive too much and we no longer want to forgive but little by little you will see the world better.

Don't speak ill of me when I have the  
intellect to be able to hear you through the  
walls across the roads and across the  
sea.

Why do you lower yourself? You  
should not lower yourself if you are the  
one who can't stand it anymore in that situation.

The distant old advice                   " Sage"  
It is scaring the weakest. From there  
all the "crazy" ones come out, they scare the  
cat because they fear scaring a tiger  
more than usual.

Thank goodness that in this life  
friends come little by little

because if the friends came all  
together it would be a bigger problem  
for the enemies to have the opportunity  
to come all together  
also.

You are a genius, you managed  
to push me away and you stayed in  
Loneliness.

The lie is a joke without  
importance that even makes me laugh.

I would have given everything to follow  
in your footsteps but I was tired  
and preferred to follow mine.

It is true to punish is not very glorious but  
he who punishes an executioner in my  
way of thinking has the salvation  
he desires.

Your criticism gives me no pleasure  
at all but it strongly points out that I  
am a person who has personality.

Silly person that you tell him that this is  
wrong and he does evil and  
above it shows it to you.

I don't need anything or anyone  
to know that I can love myself.

My real friends are not perfect  
because I don't look for them to be  
perfect that's why I have a lot of  
friends.

Allow the rude  
shut up

People who have the same problem  
as you usually have the same problem.

If it bothers you so much that I am like  
that, I'm going to give you some time to

Mature a little like you made me mature.

Sometimes friends forgive but maybe this  
time I don't want to forgive anyone  
for anything.

I am an individual being with  
ambitions and I deserve all the freedom  
in the world and to make my own  
world my own happiness without harming  
anyone.

It's true I'm wrong but if I'm not wrong I'm  
right because at least I try hard.

If you knew the sweats that I  
cost this life I would not criticize or  
even a second to occupy  
mine.

Stop thinking about me, I can think for  
myself.

My work, my life is like that and I  
fall in love with the person I choose and  
not with just anyone.

If a love does not correspond to me

You can lock me up, you can abuse  
me psychologically, but it shows that you  
have a maximum degree of inferiority.

I don't know if the spirit exists but I have  
it very high.

I'm not punishing you, I'm just  
removing you from my conscience.

It hurts me a lot that you are like this. I  
don't know if we can separate, but if you  
are capable of making decisions for  
me, I advise you to make the best ones.

I'm going to thank you that you don't like  
what I do and that you don't even  
approve of it because I know and trust that  
I can do better things that others will like  
more than you.

nobody.

I'm sorry but I have some time alone and it's  
one way and I'm not going to waste  
it with you.

And if you treat me like a dog I will  
surely bite you but if you treat me like a  
human being I will be the  
better person with you.

If you ignore me, that's your problem, but  
it also makes a difference to  
me that I want to ignore you all my life.

Since you mess with my way of  
being, don't you think you already had  
time to educate me?

It hurts me a lot to say goodbye  
That's why I ask you to leave.

Time is running out and need is running  
out, don't be so stupid as to make me  
waste everyone's precious time doing  
what you want.

It's good to follow social standards that's  
why I ask you to leave me.

And if you crack me with your power I will  
have to live where you are not.

I can't believe anything because  
you are a liar.

50 years of humiliation is not  
They heal with a day's forgiveness.

I feel very sorry for you not because of  
what you did to me but because of what  
you said to my friends.

I am a poet, you talk to me like a poet,  
otherwise I don't understand you and you  
will never understand, now you  
understand something if you don't do service.  
where good things are done  
intentions.

I'm sure a lot of people love me, don't  
hurt them by praying that they don't love  
me because for  
that is not prayed.

Stop judging others by saying things  
I'm not, if you knew me a little you  
would realize what I am and what I'm  
worth.

You talk about me behind my back and  
then you turn your back on me so  
the only thing left for me to do is give  
you a slap in the ass.

Now what does it have to do with me?  
of material things in the  
bakery they give me the bread that  
seems smarter to me.

I have gone through many crises  
because of you, it is time to advise you to  
be a human being.

What good is it for you to give me  
which I already have.

It's useless, you'll never stop thinking  
like this, you're like the awning of an  
orange tent, so you can see it from afar.

Occasionally more than one  
he would have to take off his crown  
that he doesn't deserve.

I'm not going to stay alone, I'm going  
to stay without you, it's different.

It may not solve my self-esteem  
now, but I am sure of one thing:  
loving you will never hurt you.  
I will want.

When you feel like talking, talk  
to me directly so I can tell you well.

Without being a man it is being Heavy  
imagine the lead I have in  
head.

I could hurt myself with deception but  
how are you going to beat me now.

It is necessary that you work for yourself  
because you need it a lot.

Of course I can't explain it to you, it can't  
be explained to a stupid person.

The day you give me freedom I will not  
go to your funeral.

If you have vanity with  
eternity at least occupy yourself a little  
with this earthly life.

Do you know what the word means  
Peace go away from me for everyone  
the media.

I have no resentment, I have a fever in my  
head.

Being afraid of your censorship is the  
faithful explanation of your  
psychological violence towards me.

I don't know what I'm going to do when  
you're not alone I'm going to know that you  
not these.

If you kick the ball away, I'm not going to  
run and look for it, I'm going to wait  
for you to bring it.

The worst thing I did was listen to you.

And if you take this as a punishment  
because you have done a great work  
TRUE.?

Thanks for the pain it's good for  
know how you treat me.

Your abuse shows the amount  
of people who love me very much.

All the lowness goes over my head,  
that's why I have height.

I have my own gestures, my own  
way of walking, my own way of  
looking and luckily no one copies me.

Control is the reflection of all that is  
superficial and I do not control  
anyone therefore I am not  
superficial.

You are not going to be able to buy  
me with the value that you put on  
me, that would be slavery, so  
yes, buy me but with the price that I set and

It is so high that not even the richest man on earth can afford it.

He is already starting to live and lets others live.  
others without strange things.

If you mess with my individuality  
you mess with my privacy and  
then he is getting involved  
with me and you will fail.

Abuse is not forgiven nor does God always  
return to the person who  
he abused me

You can live very happily, it's  
time for you to retire.

If it will be heavy that it will not be worth it to you  
not even when you sleep.

I identify with myself and who identifies  
with me who does not  
I made the mistake of taking my  
name

Old trick of making people jealous  
others thus get confused  
loves with the packaging they carry  
the goods

Whoever asks you for many favors and  
then treats you with rudeness, you will  
know that you have to keep those  
who are envious away.

You have to understand when you read  
this that I'm not fighting, I'm  
struggling.

It is okay to forgive, yes, but only once, but  
never fall into rebellion;  
be careful it brings illness.

Any person can make you a God or a  
Goddess and I can assure you that  
almost instantly there will be those who will  
always criticize you.

Instantly there will be someone who  
insults you and always instantly there will be  
someone who follows you.

The other day I forgave all humanity  
but it didn't last so long.

If an angel falls from heaven you will  
realize why they have cut off his  
at.

The meaning of life is to take the soul for  
a walk, the meaning of  
Death is freeing the soul.

As long as I have a heater with  
hot water, you will never be  
able to hurt me.

## Your inner war

It seems that all that noise and all that  
military deployment made you feel  
safe when this movie was over and the  
prairies made you heal the guilt by seeing  
yourself in a concentration camp but

innocent at last. So this is not  
It's the worst thing, it was a war  
movie you have to go through planes  
and special effects, fast machine gun runs  
and then suddenly the good guy appears  
and suddenly the bad guy appears but

all of them are not living the  
screen are living inside your imagination  
and you pay dearly for that because you  
project that movie to

your life then you become  
person who lives in the very well guarded  
concentration camp after the  
whole adventure of what is the  
rush of the  
daily live as if it were a  
war. That's why families isolate themselves  
because everyone is seeing the  
worst garbage there is, which is going cold,  
going hungry, going through death and  
you think you're safe because you're  
not in the concentration camp, very  
comfortable waiting for death to come,  
what? You think it will never  
happen, so you arm your inner guerrilla  
and copy the power of the fight into your  
daily life, and that makes you  
good in the face of  
  
society because everyone is

watching the same thing and then  
friendships begin and friendships  
separate when they change the  
movie but in this movie where terror  
sometimes takes over dreams they make  
your neutral transmitters after seeing  
so much display want to subordinate  
themselves then

you start doing things without  
sense how to walk along a deserted  
route without provisions how to fall into any  
town and get drunk how to leave  
your window open in summer how

eat animal meat without hunger.

Then your inner war begins to find  
peace and fight for world disarmament.

but not even world disarmament

save this hard imaginary pain that is  
the slaughter that is the place where you  
never want to be but you are there that  
is what scares you and that is what makes  
you an enemy of yourself  
same. Don't you see how  
those movies that made you feel sick in  
love that made you cry that made you  
laugh and it wasn't that bad but they  
caused an internal war in you because  
you can't always be next to the  
happy ending always so that's  
where that anger is that handles your  
sentimental situation. You cannot be  
cured and you need religion and you  
need therapists who all they do is be  
informed about what you are not and that  
is when you make the dependencies  
and when you are already

you forgot the evil that was  
caused to you in your imagination, blame  
the other in many ways and it is dangerous  
because you can psychologically harm  
because you can hit because you can  
scream because in this world where

machismo does not make you macho  
makes it miserable you live the life you  
think you live a life and in reality you  
are living the life of  
another bothering others with  
the purpose of appeasing that great pain  
that you carry inside that you suffered  
unjustly that you may know suffered  
as a child and you no longer even remember  
that all that they have done to you  
bombed now as an adult  
you want to cure and you cure it with  
more cruelty that is the worst then

life becomes success  
social that destroy you with  
fears of death with fears of  
love and you may fight for it  
kiss me world when you didn't see  
no war up close then to reach your inner  
peace you become the enemy of your own  
imagination and you may make real  
enemies and you may go to war and  
someone else may write your  
  
story without knowing your feelings  
because they broke them into a  
thousand pieces. Then you think about  
the capacity for forgiveness and you think  
about forgiving all the human  
beings of an artifact so we are going to  
forgive the human beings who made  
the blenders naively true.

So it is not that your internal war is  
already caused by bad people, but  
rather your internal war is knowing  
and being able to discern what  
It is the world of fiction with  
real world then when  
turns off or when you stop seeing a  
function ends there does not continue if  
You continue it, you are stupid and  
worse, stupidity begins to haunt you and  
that's when your life is rubbish.  
life being so beautiful  
waste, you begin to believe the  
songs and those are not things to believe  
because if you believe in everything  
they tell you and everything you see,  
nonsense becomes empty and you begin  
to look in others for something that  
you have inside of you and perhaps it is  
an artist by itself. not being able to discern and

so when you face your  
fictitious fear with your real fear  
The ghosts leave and your internal war  
is won by you and others by the power of  
reflection.  
of every human being. So  
bring from screen to life  
everyday is an error of being  
human that is like taking your pet to  
work is a useless morbid sadistic force  
that makes you face the best years of your  
life even for a poorly written book that can  
also bother your life.

So in this happy ending that I want to give  
you is that in this unjust world no one is  
going to be able to fix the problem that in  
that era the

generation of many  
generations ago and takes the  
artifacts as simple historians  
of human beings  
of common and ordinary types and you will  
no longer have to fight for causes and  
punish others because you mistakenly  
believe that the other is better because  
of what the internal struggle makes you  
and your inner claw is going to move  
forward only because of the  
art the adventures of living not in  
that concentration camp that women  
really like, but take one of those by the  
hands and take it for a walk around  
the world and see how beautiful it is  
with everything it has with its hot springs  
with luxurious hotels with different news  
with friends

different and because you can reach  
freedom simply by not holding yourself back,  
then the young person lives life and  
the adult enjoys teaching the young person  
to live life with  
so many mountains with so many  
seasons with so many precious  
stones with so much water with so  
many things that I don't know that  
They are not within my circle  
internal war and it is not like in a  
concentration camp that I see things  
that are different and that makes me  
different. And since I cannot change the  
world from the different things that I see, I  
transmit it to you so that you can see better  
things than what your imagination is  
seeing now, but remember, it is  
fiction because

It is processed by my mind. If you  
want reality, you will have to make  
your own path or my path if you wish,  
and thus the internal war will go away.  
The soldier was inside the field

concentration bound in a  
Prado this soldier looked towards  
Both sides saw a light coming from  
the sky and quickly cut down the  
guard and took away his gun and  
hit him with his elbow then he took  
the machine gun and started running.  
to kill soldiers from the other side  
then he faced monsters  
and he destroyed them with his  
magical powers and he continued  
running and running until he came  
across a church and the priest told him  
I'll keep the gun for you and then he continued

running and passed incognito by the  
enemy guards inside the  
fortress where they went on vacation  
some friends then took a flight and  
went to Argentina and from there he  
opened a hardware store he met a very  
pretty woman the newspaper  
news I don't remember if he got married  
But he ended up with the girl or that's  
what it seemed like. Now that you know  
the movie, will you believe me?  
Or do you prefer to go your own way and  
end humanity's internal war once  
and for all?  
It seems like it is happening to others  
but it is happening to us.  
ourselves.

So why do they say in a movie that a  
super soldier

He escaped a maximum security prison. Don't think that you are going to be able to do it because in a movie they say that the boy was a genius at calculations and that he won over the prettiest girl in school, that doesn't mean that you can do it. Just because a movie tells you that a monster was your son does not mean that it is your son.

Just because a movie tells you that you are a hero of the revolution, no it means that in real life he becomes a hero of the revolution.

Just because a movie tells you that the whole world is at war does not mean that the whole world is at war. Because one

movie tells you what it tells you doesn't  
mean you think what you want to think.  
Finally, friends are there for something,  
precisely for that reason, so that the  
pleasure of enjoying a peaceful  
moment of art and culture does not become  
your reality, that's what friends are for to  
get rid of the internal war, if you are left  
without friends, it has the philosophy and  
If you don't have the philosophy, I  
hope you have money left. Good ending  
right? Because

knowledge without your self-criticism

It damages your mental health and your pocketbook.

If you don't read it , It doesn't happen if you  
don't listen to it. It doesn't happen, if you don't see it, it  
doesn't happen. If you don't do it, it doesn't get done.

Simple self-criticism. This is love and

the happiness. Remember; assert and  
you will achieve.

Special voucher (holidays)

Special day free SMS voucher with cell  
phone and/or work purchase  
extra

Because there are many dates, many  
gifts are given, many walks and that can  
be in the form of a raffle.  
as I was also saying with

The purchase of a cell phone that comes  
with free SMS to call the raffles and  
paying for it with work, what can be  
done is an agreement and, by the way, it  
is another business between the  
companies, the workers and the  
telephone companies.

That is, to be able to have to buy or  
have to pay certain  
services also as it came

Saying that on so many dates that there  
are now it is convenient for people  
to have an additional balance if  
they do not have cash to make the gift.

So everyone celebrates Friends' Day  
with Mother's Day with Father's Day etc.

The business that can be done  
between companies is that a deposit is  
created for the day of and the employees  
have a payroll of the days they save for a  
certain day worth the

redundancy on the part of the  
administration. The mission

The most important thing would be to  
economize expenses and  
coordinate specific expenses so that this  
way and this can be another plan that  
also ends and everyone knows it  
with unsatisfactory expenses. On the  
other hand, it means that people feel  
satisfied with their lives and in this way  
work happier, travel happier, buy happier  
when retired, be happier and

be happier being both a

An employee who is just starting out should  
start off happy and the others above  
should be happy too and everyone should  
buy not because they have it. They saw  
that it says it saves

There is always time to apply it.

I don't know if it is possible but it is a business for the little ones so they can buy with cell phone balance and parents will have control of what they buy.

Of course it is for the private sphere.

## The kid of the Avenues

If you ever feel alone and  
hopeless in life because they don't  
know you, take the advice of a boy  
who walked the avenues.

I think that after this film many people will love it.

Genre: Fiction / gender diversity / Cultures.

Song: the stranger with long hair

Band songs: all of the era of Buenos Aires Argentina.

Realization for several countries

(Semi-scripted)

Mandy began her journey along the main avenue and walked it three times round trip.

At night he went to a bowling alley and two girls asked where they could meet him from, intrigued, and thus they established the first friendship. They left their phone numbers and said goodbye.

The next day Mandy begins to travel again the avenue with his raincoat and the only thing he did was look at the windows and the trees and walk calmly while the girls looked at him but he only walked with a slow step forward and after walking down the main street about three times he

He returned home and went out at night.

He went to the bowling alley again and strange girls greeted him like knowing him personally.

So I was going from avenue to avenue walking doing bowling and being known but there was a girl who always rejected him and that was a big problem for him so he tried to win her over so I made a song for her.

The girl kept rejecting him and he asked her why so much rejection and she tells him, haven't you realized yet that I'm the girl on the avenue? He did not reply

I am an ethicist of the avenue. And she  
tells him, haven't you all noticed?

the followers I have? And what do you  
do to have so many followers,  
did he tell the girl? I just walk down the  
avenue and the boys follow me and  
Mandy tells him what a coincidence, I do  
the same thing too.  
same. ? The girl says well  
well I have to go and he leaves.

It's just that in the bowling alley  
he was feeling down while talking to  
other girls and having a drink.

Then Mandy thought that with so  
many avenues she would go through  
another one and make other friends.

So it happened that, as was his routine,  
he went to high school.  
level at good restaurants at home  
from culture to theater to cinema  
and I always found someone, a girl who  
was curious about where  
I knew him.

So in that way I made a  
small dialogue and with the girl he either  
walked or went to a hotel.

Mandy was a boy who worked a lot and  
worked in the morning so he had to  
walk the avenue in the afternoon and in

the night until about 2 in the  
Tomorrow I will conquer some girl with  
that same strategy but

that girl's inimities or even calling  
it inimities of wanting to be with him,  
it seemed as if she didn't exist for him,  
right.

And that's how Mandy started  
become famous within the city  
already have many followers and therefore  
then friends started following him. I don't  
know if it was so that he could  
introduce the girls to him and then  
They went out in bars to tour the  
shopping malls to go to the  
beach and began to have followers so  
he planned to make a band with the best  
musicians.

Then Mandy and the musicians begin to  
rehearse, not forgetting  
about that girl who was not paying  
attention to her and was distracted,  
so she gets her act together and begins to  
rehearse and soon the band gets a tour  
proposed by a producer who also  
asked her what where I knew  
him from and from there he  
works during the day and

plays during the night inside the  
city while he begins to have many  
followers on the web and finally one  
day they accept a demo on a radio and  
they begin to play more and the band  
begins to make money with the producer  
which allows them to travel but that girl  
doesn't even plan to appear.

Then Mandy, back home and  
back in her life, wonders why not  
walk down the avenue like she  
did before and starts walking  
around and runs into that girl and  
asks her what your name is?  
My name is Antonella and what  
is your name, my name is  
Mandy.

The girl says well, Mandy, I'm  
going to tell you, yes, you've  
been following me for a long  
time and you can't find me. What's  
happening is that I also walk  
the streets. It's because  
I'm undocumented. If you  
could help me get  
the documentation so I don't have to.

hiding that that's why I haven't called you.  
Of course I would even marry you.

Mandy then takes her hand and says  
well, I'm going to talk to a friend I have  
and see if they can help you.

After a few days Mandy got the paper  
and took it to the avenue since her  
phone was not answering and  
waited for her on a bench until she passed  
by and smilingly told him what a good  
cousin, what a family trick, how did Mandy  
say well? Of course, it's a family secret to  
walk down the avenues to be famous.

then Antonella begins to  
laugh out loud and Mandy

He offends and leaves, throws himself  
on a bed and says no, this can't be.

Then Mandy takes the plane and goes  
with the band to Europe and  
starts playing and playing and then  
she meets a girl from her country who  
is a friend of Antonella who  
confesses the truth and tells her that  
she is not her cousin, she only said it  
to take you out, she's a lesbian that's why  
she didn't want to tell you.

"Now I understand," Mandy said.

He asks Selenela that girl to walk  
along the promenade and while  
walking I go to the two of them  
hugging and Selenela tells him there  
are many boys and many girls

that the avenues travel with those  
formulas, the only thing that does not  
they say.

Mandy grabs her head and tells him I'm  
an idiot.

Then Selenela kisses him.

That's when the band passes by  
in a truck because they came from playing  
and they say hey Mandy, you haven't come.  
to play with us.

And Mandy tells him he didn't say the band.  
I'm returning to my country, I'm already tired  
this life.

At that moment dawn begins and the  
sun begins to rise and you see a girl  
walking from

front while Mandy and Selenela woke him  
up the sun on the beach walking along  
the boardwalk then as he approached the  
girl began a  
great joy when they find  
Antonella then hugs the  
three the two girls with the boy and they hug  
and she makes this sad  
now we are the band of the  
avenue and the three of them laugh out loud  
and then they move away and get  
lost in the luminosity of the sun.

The house of lack of control

It is an idea for children for the  
July holidays.

The only modification that needs to be  
made in the case of theaters is  
remove some seats.

It's about putting together a recreational game, how to be baseball players, how to make bouncy castles. ping pong tables, little machines, soccer goals and even a razueta for the girls.

You can also sell all kinds of sweets with the company of parents or a relative or a friend or a school teacher, which would be the most convenient to make more space where it can be done both in a theater and in a classroom.

communal of a home in where the protagonists will be the children with psychedelic lights and for the little ones games with

mats and also games to integrate.

So in each function the children, the educators and the parents or people in charge will be in a relaxed manner since the children in their protagonism will be all games as you have mentioned and may also include new games that are given to them.

happens then it's about doing performances of an hour and a half, two hours more or less with a price to be agreed upon according to the instruments that the organization is going to evaluate and I also forgot to be in the shopping malls and also so many spaces in warehouses in the interior of the country and why not say about the

region or the world because even  
Now although it is good to go see a  
clown show that can  
also be in certain

When it comes to guiding children, it is  
about making them feel the freedom of  
being able to enjoy one game after  
another and make friends, and for music it  
would be good for them to choose  
themselves, having a DJ play them  
whatever they ask for.

So now July we have the  
more entertaining vacations with  
children who will want to return to your  
show and then they can upload it to  
tik tok and make links  
lasting friendship.

It would be like the museum of  
happiness for them.

Let's also not forget that all gaming clothing can also be rented from their respective owners. Or ultimately make associations

organization with different game owners.

It can also be a television program that is classic for those two weeks and if you like, continue doing it with the format that

walk with socks on top of the mats without pressure and as I always say in this article that they look free and that although they do compete in some sector like archery this too

the inflatable castle for example so that everything is not so

competitive and is truly a  
children's program.

What production gains is from the  
sales and promotion of the  
items that children and adults are  
consuming, why not.
